

PFF5-801

DESCRIPTION

FRONT UPPER CONTROL ARM TO CHASSIS BUSH

INSTALLATION GUIDE

Contents (parts per pack):

4 x Polyurethane Bushes 1 x PTFE/Silicone Grease

2 x Stainless Steel Sleeve 1 x Flat Cut Mild Steel Washers

3 x Mild Steel Washers

Please read the complete fitting instructions and check package components before fitment. These fitting instructions are to be used as a guide and in conjunction with workshop manual. It is recommended that:

- -all work to be carried out by a licensed technician;
- -all safety precautions adhered to;
- -wheel alignment to be checked and adjusted as required after any suspension work.
- -All fasteners must be tensioned to manufacturer's torque settings.

Fitting Instructions:

- 1. Remove the original arm from the car.
- 2. Press out the original bush including its outer shell.
- 3. Clean away any dirt and corrosion from the arm.
- 4. Apply a small amount of the supplied grease to the outside of the bush and press into the arm.
- 5. Apply more grease to the bore of the bush and press in the sleeve.
- 6. Refit arm to the car, placing the supplied washers on the outside of the bushes. NB, the flat-edged cut washer should fit the right-hand side chassis mounting point to clear the captive bracket.
- 7. Refit the arm and tension all hardware to the manufacturers recommended torque settings.
