

PFR69-122

DESCRIPTION

REAR DIFF MOUNT

INSTALLATION GUIDE

Contents (parts per pack):

- 4 x Polyurethane Bushes 1 x PTFE/Silicone Grease
- 2 x Stainless Steel Sleeves
- 2 x Zinc Plated Mild Steel Washers

Please read the complete fitting instructions and check package components before fitment. These fitting instructions are to be used as a guide and in conjunction with workshop manual. It is recommended that:

- -all work to be carried out by a licensed technician;
- -all safety precautions adhered to;
- -wheel alignment to be checked and adjusted as required after any suspension work.
- -All fasteners must be tensioned to manufacturer's torque settings.

Fitting Instructions:

- 1. Remove the original bush from the mount.
- 2. Clean any dirt and corrosion from the bore of the mount and file off any sharp edges.
- 3. Insert the polyurethane part into the mount until the top hat section sits on the surface of the mount.
- 4. Insert another polyurethane part into the mount from the opposite side.
- 5. Apply some of the supplied grease to the bore of the polyurethane bush and insert the steel sleeve into the bore until it sits flush within the parts.
- 6. When refitting the mount, place a washer on the surface of the bush, closest to the rear of the car.
- 7. Tension all hardware to manufacturers recommended torque settings.
